Experience

Exactspace Technologies Pvt Ltd/ Product Implementation Specialist
SEPTEMBER 2022 - PRESENT, KARNATAKA

Configure firm's analytics product & service for various industries following high standards of delivery and quality.

Perform health checks of existing customers in need of platform upgrades and suggest solutions based on best practices and client needs.

Ensure that all client users during customer onboarding are trained and educated properly on the platform & establish a relationship built on trust with client champions.

Complete the execution of platform deployment in such a way as to anticipate future client needs or business requirements that may occur.

Provide consulting advice to clients about ExactSpace's product offerings/platform during different phases of project implementation.

Intel Technologies India Pvt Ltd / Graduate Intern Technical
JUNE 2019 - JUNE 2020, KARNATAKA

Developed a framework with Python and SQL to clean data from 72 disparate sources, resulting in a considerable reduction in data quality errors.

Automated parsing JSON files to CSV files to store in 'Hive' using Python programming and cleaning that data using SQLite.

Scheduling the automation process by writing a sequence of commands in a file and executing them using shell scripting in Powershell.

Used docker containers to deploy our automation framework to avoid compatibility issues for the reusability after testing.

Created an interactive dashboard to present outcomes to the stakeholders.
